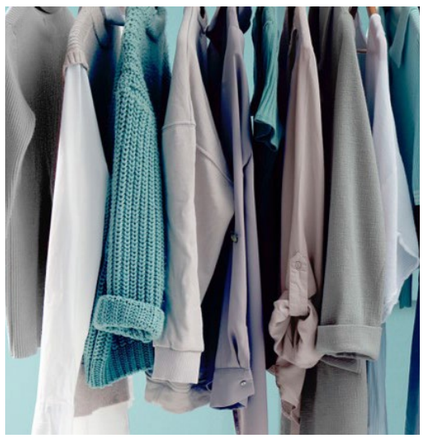
Solutions for a cleaner world

Greater chemistry



Home Care and Industrial Cleaning - Solutions for a cleaner world

At Clariant, we provide versatile solutions for the Home Care and Industrial Cleaning segment. From highly specialized solutions for premium products to traditional surfactants and functional additives. We offer a wide range of sustainable and top-performing ingredients, and together with our application know-how we help to support you in developing the right formulation.

In this brochure, you will find our portfolio of home care ingredients categorized into fabric and surface care polymers, rinse and mild surfactants, as well as into traditional anionic and nonionic surfactants, surfactant blends, binders and auxiliary, rheology modifiers, functional additives, solvents and biocides / preservatives.

Textile Care Polymers

Product	Functions	Chemical nature	Applications	Benefits	Performance claims	Handling form	Sustainability and certifications	RCI [%]*
TexCare® SRN 170 SG Terra TexCare SRN 170 SG Terra is part of our bio-based range of soil release polymers and provides excellent secondary cleaning performance in liquid laundry detergents. Next to its soil release function it provides superior detergency boosting power in a wide range of surfactant systems and can help to make the detergent more weight-efficient.	Soil Release Polymer	Soil Release Polymer nonionic	Fabric softener | Laundry additives | Laundry detergents | Laundry pre-treatment	- Soil release polymer providing the perfect balance of primary and secondary cleaning power - Enables cold washing due to its versatile contribution to cleaning performance - Soil release effect enables fiber protection against dirt and prevents dirt from penetrating deep into the fabric - Contributes greatly to primary detergency especially when is used in slightly higher concentrations, enabling a detergency boost or more weight efficient detergents - Extra whiteness through its excellent soil anti-redepositioning effect - Increases wear comfort of clothes due to fiber hydrophilization	Detergency booster | Hard water tolerant | Maintains whiteness | Soil release effect | Stain removal	Liquid	EU Ecoflower | Kosher | Nordic Swan | Vegan	65
TexCare® SRN 260 SG Terra TexCare SRN 260 SG Terra is part of our bio-based range of soil release polymers and provides best-in-class secondary cleaning performance in liquid laundry detergents. The polymer is highly effective already at low use levels and provides additional primary detergency boost in a wide range of surfactant systems when used in higher concentrations.	Soil Release Polymer	Soil Release Polymer nonionic	Fabric softener | Laundry additives | Laundry detergents | Laundry pre-treatment	- Soil release polymer providing best-in-class secondary cleaning power for maximum next time cleaning performance - Enables cold washing due to its versatile contribution to cleaning performance - Soil release effect enables fiber protection against dirt and prevents dirt from penetrating deep into the fabric - Contributes greatly to primary detergency especially in slightly higher concentrations, enabling a detergency boost or more weight-efficient detergents - Extra whiteness through its excellent soil anti-redepositioning effect - Increases wear comfort of clothes due to fiber hydrophilization	Cold washing | Detergency booster | Improved skin feel of synthetic fabrics | Maintains whiteness | Soil release effect | Stain removal	Liquid	China registration | EU Ecoflower | Kosher | Nordic Swan | Vegan	75
TexCare® Gemini SG Terra TexCare Gemini SG Terra is a bio-based nonionic soil release polymer combining excellent secondary cleaning performance in liquid laundry detergents with unique rheology control. It is therefore especially suitable for detergents which require viscosity build up.	Soil Release Polymer with rheology control	Soil Release Polymer nonionic	Fabric softener | Laundry additives | Laundry detergents | Laundry pre-treatment	- Soil release polymer with integrated rheology technology - Viscosity stabilization or thickening of detergents depending on surfactant system; additional thickeners become obsolete - Enables cold washing due to its versatile contribution to cleaning performance - Soil release effect enables fiber protection against dirt and prevents dirt from penetrating deep into the fabric - Contributes to primary detergency enabling a detergency boost or more weight.efficient detergents - Extra whiteness through its good soil anti-redepositioning effect - Increases wear comfort of clothes due to fiber hydrophilization	Cold washing | Detergency booster | Improved skin feel of synthetic fabrics | Maintains whiteness | Rheology control | Soil release effect | Stain removal	Liquid	EU Ecoflower | Nordic Swan | RSPO MB | Vegan	80

Product	Functions	Chemical nature	Applications	Benefits	Performance claims	Handling form	Sustainability and certifications	RCI [%]*
Textile Care Polymers								
TexCare® SRA 300 F TexCare SRA 300 F is an anionic soil release polymer offering highest secondary cleaning performance. Due to its powder form it is designed for powder detergents.	Soil Release Polymer for powder detergents	Soil Release Polymer anionic	Laundry additives | Laundry detergents | Laundry pre-treatment	- Anionic modified soil release polymer in powder form designed for powerful powder detergents - Enables cold washing due to its versatile contribution to cleaning performance - Soil release effect enables fiber protection against dirt and prevents dirt from penetrating deep into the fabric - Contributes to primary detergency enabling a detergency boost or more weight-efficient detergents - Extra whiteness through its good soil anti-redepositioning effect even after multiple washes - Increases wear comfort of clothes due to fiber hydrophilization	Cold washing | Detergency booster | Improved skin feel of synthetic fabrics | Maintains whiteness | Soil release effect | Stain removal	Powder	EU Ecoflower | Nordic Swan | non GMO | Vegan	0
TexCare® DFC 6 pre TexCare DFC 6 pre is a dye fixative preventing bleeding of colors and discoloration of textiles. Acts also as dye transfer inhibitor. Especially suitable for nonionic formulations.	Color Care Additive	Polyamine derivative	Fabric softener | Laundry additives | Laundry detergents | Laundry pre-treatment	- Combines color protection & dye transfer inhibition - Significant improvement in color maintenance of fabrics - Effective dye transfer inhibition during the wash - Especially suitable for detergents for colored and fine fabrics, but also for heavy duty detergents - Liquid grades for liquid detergents and fabric softeners available	Dye transfer inhibition | Fabric color maintenance	Liquid	non GMO | Nordic Swan | Vegan	0

*RCI (Renewable Carbon Index) is calculated according to DIN ISO 16128. Product availability may vary by region. Please contact your local Clariant representative for specific information on product availability in your area.

Product	Functions	Chemical nature	Applications	Benefits	Performance claims	Handling form	Sustainability and certifications	RCI [%]*
Surface Care Polymers								
Aristocare® Smart Aristocare Smart makes the cleaning of hydrophilic surfaces like ceramics, glass, and stainless steel a lot smarter. By providing a protective film, the surface becomes smoother and the sticking of soil and water droplets is prevented. Consequently soils can easily be removed during the next cleaning. Water drains more quickly from the smoothed surface resulting in spotless drying without limescale build-up. Furthermore, Aristocare Smart supports homogeneous cleaner distribution leading to the regular reflection of light. This guarantees a more brilliant and streak-free surface, which stays cleaner for longer.	Multi-Benefit-Polymer for Hard Surface Cleaners	Polymer	Automatic Dishwashing | Hard surface cleaning | Industrial & institutional | Toilet Care	- An all-round talent: multiple benefits in different hard-surface cleaner formats - Protects surfaces and helps to reduce the time needed for cleaning - Versatile in use: stability at broad pH range from pH 1 to pH 12 and in bleaching environments - A powerful additive: benefits at low use levels (0.05— 0.2 %) - Effective on several surfaces: designed for hydrophilic surfaces like ceramics, glass and stainless steel - Flexible ingredient: compatible with cationic, non- ionic and most anionic surfactants - Easy to handle: low-viscosity aqueous solution	Anti-fogging | Anti-streaking | Dirt repellency | Fast water drainage | Kitchen soil removal | Lime scale prevention | Lime scale removal | Soap scum removal	Liquid	China registration | non GMO | Nordic Swan | Vegan	0

*RCI (Renewable Carbon Index) is calculated according to DIN ISO 16128. Product availability may vary by region. Please contact your local Clariant representative for specific information on product availability in your area.

Rinse Surfactants

Product	Functions	Chemical nature	Applications	Benefits	Performance claims	Handling form	Sustainability and certifications	RCI [%]*
Genapol® Complete Genapol Complete is a special low foaming rinse surfactant for multifunctional automatic dishwashing detergent with an excellent sustainability profile. It is especially suitable for tabs or powders. Genapol Complete ensures brilliant rinse results for streak-free and spotless dishware and very good drying performance. It allows rinse and drying performance comparable to the best-in-class alternatives but without the fatty residues often seen with those products.	Multifunctional rinse surfactant	Ethoxylate	Automatic dishwashing	- Bio-based rinse surfactant with outstanding sustainability profile and a low carbon footprint - Excellent rinse and drying performance in multifunctional automatic dishwashing detergents and rinse aids - Prevents fatty residue build-up in the dishwasher - Can be combined with other non-ionic, anionic, and cationic dishwashing additives	Grease build up prevention | Shine | Superior drying | Superior rinse performance	Wax-like	China registration | CleanGredients | EU Ecoflower | non GMO | Nordic Swan | Palm-free | Vegan	32
Genapol® Complete M 85 Genapol Complete M 85 is a liquid form of Genapol Complete. It was developed for an easier handling of the product and provides the same performance benefits and sustainability profile as Genapol Complete.	Multifunctional rinse surfactant	Ethoxylate	Automatic dishwashing	- Bio-based rinse surfactant with outstanding sustainability profile and a low carbon footprint - Excellent rinse and drying performance in multifunctional automatic dishwashing detergents and rinse aids - Prevents fatty residue build-up in the dishwasher - Can be combined with other non-ionic, anionic, and cationic dishwashing additives - Easy to handle and suitable for cold processing	Grease build up prevention | Shine | Superior drying | Superior rinse performance	Liquid	China registration | CleanGredients | EU Ecoflower | non GMO | Nordic Swan | Palm-free | Vegan	32
Genapol® EC 50 Genapol EC 50 is an excellent low foaming surfactant and rinse aid for multifunctional automatic dishwashing detergents. It provides great overall rinse performance and superior drying performance also on plastic items.	Multifunctional rinse surfactant	Modified fatty alcohol polyglycol ether	Automatic dishwashing	- Excellent rinse and drying performance - Superior plastic drying - Ideal for multinfunctional detergents and P-free products - Can be used in liquids, tabs and rinse aids	Shine | Superior drying | Superior rinse performance	Wax-like	China registration | EU Ecoflower | non GMO | Nordic Swan | Vegan	0
Genapol® EC 50 M 90 Genapol EC 50 M 90 is a liquid form of Genapol EC 50 and is designed for an easier handling of the product. It provides the same performance benefits as Genapol EC 50.	Multifunctional rinse surfactant	Modified fatty alcohol polyglycol ether	Automatic dishwashing	- Excellent rinse and drying performance - Superior plastic drying - Ideal for multinfunctional detergents and P-free products - Can be used in liquids, tabs and rinse aids - Easy to handle and suitable for cold processing	Shine | Superior drying | Superior rinse performance	Liquid	China registration | EU Ecoflower | non GMO | Nordic Swan | Vegan	0

*RCI (Renewable Carbon Index) is calculated according to DIN ISO 16128. Product availability may vary by region. Please contact your local Clariant representative for specific information on product availability in your area.

Mild Surfactants

Product	Functions	Chemical nature	Applications	Benefits	Performance claims	Handling form	Sustainability and certifications	RCI [%]*
GlucoPure® Wet GlucoPure Wet is a mild sugar surfactant with excellent cleaning and wetting ability. It is designed for the use in hard surface cleaners and especially suitable for bathroom cleaners with a mild pH value and all purpose cleaners. GlucoPure Wet combines fast soap scum removal and mildness to plastic or metal materials.	Mild sugar surfactant	Glucamide	Hand dishwashing | Hard surface cleaning | Laundry pre-treatment	- Mild wetting agent and solubilizer for hard surface cleaning - Excellent soil removal and soap scum dispersion - Gentle to hard surfaces due to superior mildness to plastic or metal surfaces - Avoids corrosion or stress cracking of hard surfaces - Solubilizer for hydrphobic oils and perfumes - Very mild to human skin	Excellent wetting | Mild to skin | Mild to surfaces | Soap scum removal	Liquid	China registration | CleanGredients | Ecocert Detergents | EU Ecoflower | Halal | Kosher | Nordic Swan | non GMO | RSPO MB | Vegan	93
GlucoPure® Foam GlucoPure Foam perfectly combines sustainability and performance for Hand Dishwashing Liquid Detergents. The mild sugar surfactant provides a superior foaming profile and oustanding ecological profile. Therefore it is especially suitable for the use as co-surfactant in natural, mild and ecofriendly hand dishwashing detergents. GlucoPure Foam is based on coconut oil and is therefore suitable for palm-free detergents.	Mild sugar surfactant	Glucamide	Hand dishwashing	- Great performance: High foam mileage and excellent degreasing - Very mild to human skin - Provides pleasant skin feel after manual dishwashing - Viscosity control: easy to thicken with salt - Formulation flexibility: improves cold temperature stability - Excellent eco-tox profile: low aqua tox labelling	Easy to thicken | Grease removal | High foam | Mild to skin	Paste	China registration | CleanGredients | Ecocert Detergents | EU Ecoflower | Halal | Kosher | non GMO | Palm-free | Vegan	95
GlucoPure® Deg GlucoPure Deg perfectly combines sustainability and performance for Hand Dishwashing Liquid Detergents. The mild sugar surfactant provides a superior foaming profile and oustanbding ecological profile. Therefore it is especially suitable for the use as co-surfactant in natural, mild and ecofriendly hand dishwashing detergents. Due to its high actvie level and water-free formulation it is the perfect choice for concentrated formulation in pouches, pads or for self-dilution.	Mild sugar surfactant	Glucamide	Hand dishwashing	- Great performance: High foam mileage and excellent degreasing - Especially suitable for concentrated detergent formulations and gels - Very mild to human skin - Provides pleasant skin feel after manual dishwashing - Viscosity control: easy to thicken with salt - Formulation flexibility: improves cold temperature stability - Excellent eco-tox profile: low aqua tox labelling	Easy to thicken | Grease removal | High foam | Mild to skin	Paste	China registration | Ecocert Detergents | EU Ecoflower | Kosher | non GMO | Nordic Swan | RSPO MB | Vegan	95
GlucoPure® Sense GlucoPure Sense delivers unparalleled skin mildness when used as a co-surfactant in hand dishwashing liquid and laundry detergents. It provides excellent fabric care benefits to laundry products combined with good cleaning performance. Furthermore, it can be used as foam stabilizer in hand dishwashing liquids and it significantly improves the skin feel of dishwashing liquids. When used as rinse surfactant in automatic dishwashing products, it reduces spotting and filming on dishes.	Mild sugar surfactant	Glucamide	Automatic Dishwashing | Fabric softener | Hand dishwashing | Laundry additives | Laundry detergents	- Versatile caring and cleaning additive for many applications - Excellent fabric care benefits due to gentle fiber modification - Low foaming when used as single surfactant, foam stabilizer in the combination with high foaming surfactants - Very mild to human skin - Provides pleasant skin feel after manual dishwashing - Viscosity control: easy to thicken with salt	Easy ironing | Easy to thicken | Fabric softness | Foam stabilizer | Mild to skin | Superior rinse performance	Liquid (at 30 °C)	China registration | CleanGredients | Ecocert Detergents | EU Ecoflower | Halal | Kosher | non GMO | Palm-free | Vegan	96

*RCI (Renewable Carbon Index) is calculated according to DIN ISO 16128. Product availability may vary by region. Please contact your local Clariant representative for specific information on product availability in your area.

Mild Surfactants

Product	Functions	Chemical nature	Applications	Benefits	Performance claims	Handling form	Sustainability and certifications	RCI [%]*
Medialan® LD Medialan LD is a mild anionic surfactant from the sarcosinate range. It has very good foaming properties especially in soft water and displays interesting synergistic and foam-stabilization properties when combined with other surfactants.	Mild surfactant	Sarcosinate	Hand dishwashing | Hard surface cleaning | Laundry detergents | Laundry pre-treatment	- Performance booster for a wide range of detergents, especially suitable for manual dishwashing - Provides very fine, dense foam - Stable over a wide pH range, with optimal foaming properties at pH 5.5 - 6.5 - Excellent foaming power also in formulations with high electrolyte content - Suitable for detergents with free of irritation labelling	Detergent booster | Foam stabilizer | High foam | Mild to the skin	Liquid	RSPO MB | Vegan | Halal, non GMO | EU Ecoflower | Nordic Swan | China registration	80
Medialan® LD PF 10 Medialan LD PF 10 is a mild anionic surfactant from the sarcosinate range. It has very good foaming properties especially in soft water and displays interesting synergistic and foam-stabilization properties when combined with other surfactants.	Mild surfactant	Sarcosinate	Hand dishwashing | Hard surface cleaning | Laundry detergents | Laundry pre-treatment	- Performance booster for a wide range of detergents, especially suitable for manual dishwashing - Provides very fine, dense foam - Stable over a wide pH range, with optimal foaming properties at pH 5.5 - 6.5 - Excellent foaming power also in formulations with high electrolyte content - Suitable for detergents with free of irritation labelling	Detergency booster | Foam stabilizer | High foam | Mild to skin	Liquid	RSPO MB | Vegan | non GMO | EU Ecoflower | Nordic Swan | China registration	80
Hostapon® SG Hostapon SG is a mild amino acid based anionic surfactant with performance boosting properties, giving a rich and creamy foam from the slightly acidic range to the alkaline range. In combination with betaines, at pH > 7 the flash foam is comparable to standard SLES/Betaine systems.	Mild surfactant	Glycinate	Hand dishwashing | Hard surface cleaning | Laundry detergents | Laundry pre-treatment	- Significantly milder than other anionic surfactants - Efficient in broad pH range from acidic to alkaline - Foaming properties such as foam creaminess and flash foam are the highest at pH above 7	Detergency booster | Easy to thicken | High foam | Mild to skin	Liquid	China registration | EU Ecoflower | Halal | Kosher | non GMO | Nordic Swan | RSPO MB | Vegan	86
Hostapon® CT paste Hostapon CT paste is a mild bio-based surfactant from the taurate range and provides excellent foaming properties and degreasing power. Due to its very good foaming capacity Hostapon CT paste is primarily intended as a foam booster in detergents where high and stable foam is desired.	Mild surfactant	Taurate	Hand dishwashing | Hard surface cleaning | Laundry pre-treatment, laundry detergent	- Detergency booster due to excellent degreasing power - Delivers high and creamy foam - Excellent foaming even in presence of hydrophobic ingredients such as oils - Very mild to human skin - Applicable in wide pH range - Possesses very good lime soap dispersing capacity	Detergency booster | Foam stabilizer | High foam | Mild to skin | Soap scum removal	Paste	China registration | Vegan	80
Hostapon® TPHC Hostapon TPHC is a mild anionic surfactant from the taurate range with performance boosting properties and good foaming properties. Because of its powder form, it is suitable for liquid as well as for solid applications.	Mild surfactant	Taurate	Hand dishwashing | Hard surface cleaning | Laundry detergents | Laundry pre-treatment	- Provides high foam volume and stabilizes foam in combination with other surfactants - Gives a good skin-conditioning feel when used in hand dishwashing detergents - Hard water tolerant - Especially suitable for solid or concentrated detergent formats due to its high active level and powder form	Detergency booster | Easy to thicken | Foam stabilizer | High foam | Mild to skin	Powder	RSPO MB | Vegan | non GMO | EU Ecoflower | Nordic Swan	86

*RCI (Renewable Carbon Index) is calculated according to DIN ISO 16128. Product availability may vary by region. Please contact your local Clariant representative for specific information on product availability in your area.

Mild Surfactants

Product	Functions	Chemical nature	Applications	Benefits	Performance claims	Handling form	Sustainability and certifications	RCI [%]*
Hostapon® CCG Hostapon CCG is a very mild, Ecocert-certified, surfactant from the glutamate family with outstanding skin compatibility, based on 100% natural raw materials. Hostapon CCG shows good foaming behavior, particularly in the acidic range.	Mild surfactant	Glutamate	Hand dishwashing | Hard surface cleaning | Laundry pre-treatment	- Sodium cocoyl glutamate - Excellent foaming especially at pH 4-7 - Together with other surfactants it helps to improve the overall foam aesthetics - Perfect choice for formulations with pH range of skin - Combinations with GlucoPure Sense or other viscosifying surfactants are ideal to achieve a good viscosity	Detergency booster | Foam stabilizer | Mild to skin	Liquid	China registration | Ecocert Detergents | EU Ecoflower | Kosher | Nordic Swan | Vegan	100
Hostapon® CGN Hostapon CGN is a very mild surfactant from the glutamate family with outstanding skin compatibility, based on 100% natural raw materials. Hostapon CGN shows good foaming behavior, particularly in the acidic range.	Mild surfactant	Glutamate	Hand dishwashing | Hard surface cleaning | Laundry pre-treatment	- Sodium cocoyl glutamate - Excellent foaming especially at pH 4-7 - Together with other surfactants it helps to improve the overall foam aesthetics - Perfect choice for formulations with pH range of skin - Combinations with GlucoPure Sense or other viscosifying surfactants are ideal to achieve a good viscosity	Detergency booster | Foam stabilizer | Mild to skin	Liquid	China registration | Vegan	100
Hostapon® CLG Hostapon CLG is a very mild, Ecocert-certified, surfactant from the glutamate family with outstanding skin compatibility, based on 100% natural raw materials. Hostapon CLG shows good foaming behaviour, particularly in the acidic range.	Mild surfactant	Glutamate	Hand dishwashing | Hard surface cleaning | Laundry pre-treatment	- Sodium lauroyl glutamate - Excellent foaming especially at pH 4-7 - Together with other surfactants it helps to improve the overall foam aesthetics - Perfect choice for formulations with pH range of skin - Combinations with GlucoPure Sense or other viscosifying surfactants are ideal to achieve a good viscosity	Detergency booster | Foam stabilizer | Mild to skin	Liquid	China registration | Ecocert Detergents | EU Ecoflower | Kosher | non GMO | Nordic Swan | RSPO MB | Vegan	100
Hostapon® SCI 85 C Hostapon SCI 85 C is the flaked form of a mild and performance boosting anionic surfactant from our isethionate range. It is very mild to the skin and due to its excellent foaming profile it is suitable for various solid and liquid applications where high foam with no soap scum is required.	Mild surfactant	Isethionate	Hand dishwashing | Hard surface cleaning | Laundry detergents | Laundry pre-treatment	- Very mild to skin and eyes - Provides a very fine structured and creamy foam - Effective in soft and hard water due to excellent hard water tolreance - Provides a pleasant skin after feel when used in manual dishwashing detergents - Highly suitable for solid formulations such as detergent bars	Detergency booster | Easy to thicken | High foam | Mild to skin	Flakes	China registration | EU Ecoflower | non GMO | Nordic Swan | RSPO MB | Vegan	86
Hostapon® SCI 85 P Hostapon SCI 85 P is the powder form of a mild and performance boosting anionic surfactant from our isethionate range. It is very mild to the skin and due to its excellent foaming profile it is suitable for various solid and liquid applications where high foam with no soap scum is required.	Mild surfactant	Isethionate	Hand dishwashing | Hard surface cleaning | Laundry detergents | Laundry pre-treatment	- Very mild to skin and eyes - Provides a very fine structured and creamy foam - Effective in soft and hard water due to excellent hard water tolerance - Provides a pleasant skin after feel when used in manual dishwashing detergents - Highly suitable for solid formulations such as detergent bars	Detergency booster | Easy to thicken | High foam | Mild to skin	Powder	China registration | EU Ecoflower | non GMO | Nordic Swan | RSPO MB | Vegan	86
